

• ▲ BUILT FOR THE FY26 WORKFORCE PELL MANDATE

Federal compliance, **verified** in 180 days. Not by spreadsheet.

Workforce Outcomes is the verification, reporting, and audit-trail infrastructure community colleges and workforce programs need to remain Title IV eligible under the new federal Workforce Pell rules taking effect July 2026.

COMPLIANCE WINDOW 180d	MANDATE LIVE 07/26	REPORTABLE PROGRAMS All	BUILT IN VA / DC
----------------------------------	------------------------------	-----------------------------------	----------------------------

// THE PROBLEM

180-Day Verification Gap

Federal rules require employment outcome verification within 180 days of program completion. Most legacy systems can't meet this window.

Audit Trail Insufficiency

Federal auditors now expect line-item, source-traceable evidence. Manual data pulls and email-based verification will fail Title IV review.

Cross-System Reconciliation

Student records, employment data, and grant reporting live in separate systems. Without orchestration, compliance reporting is days of manual work — every cohort.

// THE PLATFORM

- 01 Automated Enrollment Verification** — real-time integration with student information systems.
- 02 Outcome & Employment Tracking** — closed-loop verification at 90, 180, and 365 days post-completion.
- 03 Title IV Audit-Ready Reports** — one-click export to federal specifications, every metric source-traceable.
- 04 Compliance Dashboard for Leadership** — real-time program-level health for presidents, deans, CFOs.
- 05 Multi-Tenant for State & System Use** — built for community college systems and workforce boards needing rolled-up visibility.

// WHO WE SERVE

Community Colleges

Compliance officers, deans, and presidents who own Title IV eligibility for outcome-reportable programs.

State Legislators & Policy Staff

State leaders responsible for system-wide outcomes reporting and federal funding visibility.

Federal Agency Staff

Title IV oversight and Pell administration teams requiring trustworthy, source-traceable outcome data.

Don't get caught reporting yesterday's data on tomorrow's deadline.

Workforce Outcomes deploys in weeks, not quarters. We work with your existing systems — no rip-and-replace required.
